www.shoppers-pharmacy.com
**Shoppers Pharmacy** has been independently led and operated with a team that focuses on providing an intimate, family-oriented environment for local residents to feel secure and confident that their health needs are being met, and that our healthcare professionals and licensed care facilities have the access to a pharmaceutical service to support their patients’ on-going requests.

**QUALITY ASSURANCE**
The pharmacy operates under the strict guidelines of State and Federal laws and as a licensed pharmacy, it is our obligation to ensure quality standards are adhered to ensuring the effectiveness of service and delivery to our patients.

**COUNSELING**
We take pride in providing personal care and service to each and every one of our clients, which clearly sets us apart from the larger generic facilities.

It is our goal to know our clients by name, history and if appropriate, short and long term rehabilitation or healing goals.

The **Shoppers Pharmacy Counseling Program** is designed to bring peace of mind for many situations including understanding your prescription insurance, or just to manage the administration of multiple medications.

**MEDICAL EQUIPMENT & SUPPLIES**
To continue our efforts to ensure community interaction, **Shoppers Pharmacy** offers access to multiple medical equipment including hospital beds, wheelchairs, walkers, canes, incontinent products and many more. In addition, we can also provide monitoring products such as glucose meters, blood pressure monitors or nebulizers.

No matter what the need, **Shoppers Pharmacy** can meet your needs!

**MEDICATION MANAGEMENT & VALIDATION**
At **Shoppers Pharmacy**, we can help you get the most out of managing your medication.

Our pill tray filling program offers a safe alternative to managing several prescriptions, and in addition, provides a solution as you remember what to take and when to take it.

Even when you are on the go, the tray is adaptable and versatile for the most busiest schedule.

**MEDICATION COMPOUNDING**
We understand the dynamics that each client, young or old, has very different needs to combat their specific ailments, some of which require the due diligence and collaboration of your doctor and our trained pharmacists to recreate your medication that is designed specifically for your needs.

**COST EFFECTIVE RX**
To ensure that your medications are dispensed timely and accurately, every request will also be evaluated and reviewed for the associated co-payments, and where possible, we will identify and provide the most affordable option for you.

**VALUE ADDED SERVICE**
For our seniors and professionals, **Shoppers Pharmacy** encourages the involvement and participation upon the date of discharge, where again, **Shoppers Pharmacy** will remove the worry and anxiety of managing the filling of prescriptions for continued compliance when you arrive home.

Our service provides the access for the prescriptions to be faxed or send electronically to our office at which time the medications will be filled per the orders and DELIVERED back to the care facility BEFORE the discharge to home.

Our program again exemplifies the team of **Shoppers Pharmacy** setting the stage for a personal full service pharmacy.

**INSURANCES ACCEPTED**
We are able to accept all major insurances including but not limited to:

- Express Scripts
- Medco
- NJM (Meicaid)
- Tricare Caremark
- Aetna
- Medco
- PAAD
